## A state with its own beach

This is a fantastic mansion with shores to the Atlantic Ocean in one of the most valued areas of Punta del Este. It has great quality of construction nestled on a 4300 sqm plot of land built in the '80. It can hold a big family due to its 5 spacious bed rooms, most of them with sea views.

Sports enthusiasts would enjoy this property as it has a tennis court, swimming pool, spacious gardens and a playroom. The back garden is communicated with the beach through a private path which even makes it more exclusive.

It also has an internal patio with a roofed barbeque area.

Offered at €7,000.000.-
